How do I find/use this starter kit? I cannot figure it out, I am in game, tried relog, restart client, etc. cannot find anything..
Buying this dnt make u invincible but does help a shtload, dnt waste ur hammer shotgun just yet tho get your shotgun skill to lv4
then that shotty will be godly

if ur starting out this will be the best thing u buy ever, and the best part is tht starter MAGD (Magnetic Gripping Device) is
personal so u wont lose it on repawns hehehehehe

I enjoyed this product so get it and enjoy Szone. very good to help me in game. First off I love the S.T.A.L.K.E.R series and
have played all of the games with multiple mods. Kudos to the team that is bring this online.

The Starter Kit though is a issue. Once purchased through steam it says that the DLC is installed however it does not show up in
my inventory. I bought this kit because I wanted to give something to the team and as \$14 US seems over priced for the content.
Regardless I expected it to show up in my inventory and have been sorely disappointed.

I've looked in my warehouse and I've spoken to the Blacksmith (at the station) who sells the kits for 1,000 G.R. Neither of these
turned up the goods. Total waste of money.. So help full DLC

I got this kit maby two years ago and when the update came for the sverlo sniper rifle and I went to their website and see if its in my reward wasnt their or checked the dlc puches and see if it was their wasnt and I contaced them on their web site and they didnt respond.
